Zeiss Ikophot Lightmeter

Ikophot Rapid

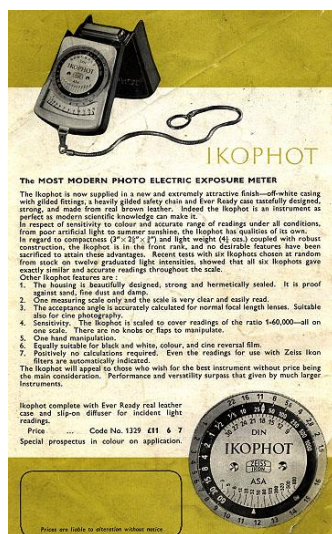

Ikophot was Zeiss/Ikon's name for their hand-held meters; like a lot of companies, they didn't get around to giving them separate model names until later on, fairly popular, Zeiss made a couple versions of it with only minor tweaks. This is the Ikophot Rapid which has a match-needle instead of a scale.

In excellent condition throughout, this fully working meter comes in its pristine carry case with its diffuser, safety chain and Original Plastic storage case.
