Murray Kinay 9.5mm Animated Viewer

The Kinay 9.5mm animated viewer was introduced in the 1950s - a plastic moulded integral case with lid that takes up to 400 foot / 120 metre spools, with a built in rewind. Normally in either an 8mm & 16mm version, this is the rarer 9.5 mm version.

The lid contains little moulded sections for use holding film clips whilst editing while back of the case has spaces for a bottle of film cement and the mains lead storage.
