Vintage Tavolux light meter in original hard case

With instructions. Serial Number 556391

The illumination Photometer "Tavolux" is calibrated in Foot Candles with two ranges 100 or 10. This a nice looking item it will probably need calibrating to used accurately as it has been in a cupboard for some years.

This unit splits into two pieces to allow readings too or from the meter facia. It comes with its original instructions and in its original wooden storage / carry box.

Note

This unit is despatched as needing a service and calibration.
